

H900 ABEK P15 | Product Code: PH-SP11709

Spasciani Escape Respirators

Escape hood very easy to use that allows escaping from the polluted area in case of fire.

Features

The device is provided with filter for organic vapours with boiling point higher than 65°C, inorganic gases and vapours, acid gases, Sulphur Dioxide, Ammonia and its organic derivatives, dusts, fumes and mists. The respirator is contained in a practical bag in antistatic fabric with belt loops, ring for wall application and side rings for shoulder use and thanks to its reduced weight and size it can be carried for a complete shift so that it can be rapidly worn in case of accident. All components of H 900 (hood, filter and bag) are made up of antistatic materials that make it suitable for use in potentially explosive atmospheres, since they do not generate electrostatic charges when rubbed. The device is therefore ATEX certified.

Details

MATERIALS

Bag: Antistatic PVC, Hood: PVC coated cotton with PU collar and anti-fog treated PC visor,

Half-mask: Silicone
