FEATURES

- All-round impact protection: Top, side, front, and rear coverage.
- Durable shell and liner: Strong build with shock and penetration protection.
- EN 12492 certified: 4-point chinstrap stays secure under force.
- Precision fit: Adjustable 3D settings keep helmet stable.
- Extended neck cover: Nape design adds rear protection.
- Accessory ready: Firm-fit points for earmuffs, visors, goggles, and lamps.
- Interchangeable front: ID or logo option with accessory mounting.
- Comfort harness: Cradles head, wheel ratchet reduces pressure.
- Sweatband support: Replaceable band with cooling options.
- Ventilated design: Airflow reduces heat by 2–3°C on average.
- High visibility: Reflective decals improve worker identification.
- Lightweight liner: Ventilated EPP improves protection and comfort.
- Custom branding: Logo printing supports identity and theft deterrence.
